Damilola Bada

Software Developer

I am a developer with 3 years of hands-on experience building reliable, user-focused web applications. Proficient in React, React Native, Node.js, and TypeScript, I take a product-minded approach to development, prioritizing great user experiences without compromising on code quality or performance. I thrive in fast-paced, collaborative environments and enjoy solving real-world problems with clean, scalable solutions.

💼 WORK EXPERIENCE

Team Lead, Fullstack Development
apomap GmbH
01/2025 - Present   *Winterberg, Germany*

- Lead the development team in building and scaling apomap's pharmacy and logistics platform, focusing on clean architecture, maintainability, and system performance.
- Drive key product decisions in close collaboration with founders and stakeholders, shaping features based on user feedback, business needs, and technical feasibility.
- Manage project planning and execution — from defining technical requirements to coordinating timelines and ensuring timely delivery of high-impact features.
- Guide architectural decisions and tech choices across the stack, improving development velocity and reducing technical debt.
- Support team growth through mentorship, regular code reviews, and fostering a collaborative engineering culture.

Fullstack Developer
apomap GmbH
11/2022 - 12/2024   *Winterberg, Germany*

- Built and shipped core features using React, Firebase, Node.js, and TypeScript, directly contributing to improved pharmacy workflows and a 20% increase in subscriptions.
- Integrated external logistic services (GLS, Mauve, ShopApotheke) and pharmacy POS interfaces (awintaONE, ADG3000, pharmatechnik) to enable smooth workflow and increase efficiency for pharmacies.
- Improved performance and reliability through modern data-fetching patterns (React Query, WebSockets), including pagination, caching, and real-time updates.

Frontend Developer
MyCodeCareer
09/2022 - 11/2022   *Boston, Massachusetts (Remote)*

- Led a complete redesign of the company website with a focus on SEO, accessibility, and mobile responsiveness — resulting in a 50% increase in traffic.
- Collaborated with designers and stakeholders to improve user flows and interface clarity, increasing engagement among job seekers and learners by 25%.
- Optimized site performance through React enhancements, reducing load times and improving responsiveness across devices. • Contributed to a platform aimed at supporting early-career developers, helping shape a more intuitive and inclusive user experience.

WORK EXPERIENCE

Frontend Development Industry Training (Bootcamp)
Brainnest Consulting GmbH
06/2022 - 07/2022   *Bremen, Germany*

- Completed an intensive 2-month program focused on modern frontend technologies including HTML, CSS, JavaScript, and React.
- Built responsive web interfaces from scratch, applying design best practices and accessibility standards.
- Gained hands-on experience through real-world projects and team-based collaboration in an agile development environment.
- Strengthened my skills in version control (Git), code reviews, and iterative development processes.

EDUCATION

M.Sc. Environmental Science
Albert-Ludwigs-Universität
09/2015 - 03/2019   *Freiburg, Germany*

- Relevant coursework: Data Analysis, GIS, Critical Thinking, RStudio with 1.7 GPA.
- Developed strong analytical and problem-solving skills through data-intensive research and scientific modelling.
- Gained experience working with data pipelines, geospatial tools, and statistical software — foundational skills that translate directly into software engineering and product thinking.
- My master's thesis and academic work emphasized structured experimentation, user-centric solutions, and the ability to learn and adapt quickly—all essential traits in tech and startup environments.
